- *Five Simple Actions that will Energize Your Ministry* – By changing your perspective you might find fresh energy and enthusiasm for your ministry.
- *The Gospel – Share with Confidence and Intentionality* – In this session we will review how to share the truths of the Gospel with kids and learn ways to begin spiritual conversations in your small group.
- *Ministering To and With Millennials* – This breakout takes a glimpse at the generation coming into leadership roles and gives perspective on how we can reach them effectively.
- *Conquering the Chaos* – a look at club discipline, why it's important and how to do it. Help for managing groups and individual clubbers.
- *Bible Lessons Remembered* – Even though they seem to listen attentively, kids often have a hard time recalling what they heard. This breakout looks at ways to increase retention.
- *Recalibrate* – What's your target with Scripture memorization? Mere recitation of a verse is good, remembering is better. Is there a target that's even better?
- *Memorization Made Simpler* – While some kids memorize Scripture easily many others find it nearly impossible. Come see some tools that will help turn struggle into success.

*Does your club have a special need? Please let us know if you have a request for something not on the list! We'll do our best to find a solution.*
